The New Year...

WOW!! 2020 is behind us, thank goodness! We can start planning for 2021 picnics, canoeing, biking, Kayaking, M&M's, golf outings, and of course our 2022 ski trips, everything hopefully will be back to normal. So, put your thinking caps on and let the board know of any activities you think we should plan for the coming year, and any activities that you would want to help with or run. The board is always looking for volunteers. After being sequestered in our houses for most of 2020, it's nice to know that soon we can be around our friends and family, it will be so nice to go back to our normal actives. We will appreciate the ski club activities even more, since we've had almost a whole year without being able to socialize with

our fellow club members.

The elections for the board will be coming up soon. It will be handled a little differently this year. The information about the elections will be in this Towline, on our Facebook Page and on the web site. Please, be thinking of people you feel would make good board members and let us know if you would be interested on a spot on the board, or head up a committee. We always, need people.

Unfortunately, as of this writing the first ski trip of the year to Telluride has been canceled. Hopefully Steamboat will happen on February 13th, Boyne on March 5th and last Snowmass on March 28, there are still openings on both the Boyne and Snowmass trips. Contact Kevin Krym, for Boyne or Tami Jo, for Snowmass.

Wishing you all a Happy, Healthy and Safe New Year!!

2021 FINALLY

What can we expect this coming year? No one knows. Our board is as anxious as all

of you to get us together and socialize. I'm thinking many of us will be on the Tier 1 & 2 of the scheduled eligibility list for the Vaccine, but most will be Tier 3, younger and healthier so having to wait longer to get the shot.

On page 8 a ski club friend of ours, Leigh Huffstutter offered up some information about the ski resorts in Colorado. She lives in Summit Country so near Keystone, Copper and Breckenridge. Our three trips are in three different counties out there so maybe slightly different processes to get on the slopes. If you are interested and/or are planning to ski in Telluride, Steamboat or Snowmass, take the time to read her article. She's an avid skier and has been on the slopes several times this winter so far. She's in Summit County skiing her heart out.

I was reading a story in "Powder" Magazine about the professionals who make our skiing possible. The article was speaking to Ski Patrol, Mountain Guides, Mountain

Experts who keep track of snow conditions. They look to either prevent an Avalanche or do rescue. I'm talking about a recognition of the Ski Patrol, Guides, Lift Operators, the restaurant workers, Condo Operators and cleaners. All these people need to do their jobs so we can have fun. I hope that as our club ventures to the ski resorts and tackles the mountain, that we all thank those who are on the front lines of the ski industry, working so we can enjoy the wonderful sport of skiing!
